Educational Issues

Licensure Issues

Dr. Mack advised the Board that NCSBN is examining a standardization of credentials for international and foreign nurses. Currently, NCSBN utilizes CGFNS, a credentialing evaluation organization. A review is underway regarding how CGFNS and other organizations operate for the screening of international nurses, particularly as the compact moves forward.

Discussion Regarding Designation of Contact Person for Applications Requiring Waivers

Ms. Singh suggested that the Board considered designating a contact person(s) to review applications that currently require full board review in order to obtain a waiver for minor criminal charges that occurred several years ago. This would eliminate licensees having to wait for the Board to meet to obtain a waiver for licensure. Ms. Singh proposed the following procedure: Ms. Singh would determine if an application and criminal background check could move forward for review by a designated Board member. The designated Board member would review the documentation and make a decision as to whether the full Board needs to review an application due to a positive criminal background check, reflecting a minor crime committed several years prior to attempting to obtain licensure. If the designated Board member grants approval for a waiver, then the license will be issued. Ms. Singh stated that the Deputy Attorney General would be asking the designated Board member to review at most 2 applications / month; this would be 0 - 3 applications / month.

Ms. Nellius moved, seconded by Ms. Udealer, to set up this process that we will have someone (a designated Board member) to review these cases (applications) and a back up; at this point, Dr. Deveraux and Ms. Tyranski (have volunteered). Dr. Deveraux will be the designee and Ms. Tyranski will review the applications, if Dr. Deveraux is unavailable to review applications, that require waivers due to a criminal offenses occurring several years ago. Motion unanimously carried.

NCSBN

CORE Project

The NCSBN Core Project is conducting a nationwide study on performance measures for nursing regulators. They have requested to sample 1,500 licensees for a survey addressing performance measurements for nursing regulators. Ms. Tyranski and Dr. Mack approved the request.
